Hi Casey,

Krishna asked me to follow up with you with more information on Regional Haze following receipt of the attached letter.

Although the letter is only focused on one Region 10 state (Washington), we have issues with all four submitted Regional Haze SIPs in Region 10. We are working with all our states to resolve issues and obtain supplemental submittals that will close the gap between submissions and requirements.

**Ex. 5 Deliberative Process (DP)**

## **Ex. 5 Deliberative Process (DP)**

Below is a summary of the SIP issues for each Region 10 state. Please let me know if additional information or a briefing would be helpful.

Thank you,

Gina
